What a Tribune Reporter Found Out by Being Around with his Eyes and Ears Open.

Knowing that this is the season of the year when calculations are being made for spring operations, and knowing that E. Nelson is half owner of the land adjoining the bank, as desirable a location for a fine business structure as there is in the city, we sent a Reporter of the TRIBUNE to interview and find out which way the current run. The current run so deep and still that we did not hear a whisper of its true inwardness, but we found out enough to warrant this article. The newspaper should post its readers in all things pertaining to their good. The purchase of goods is a big thing with each one having himself and others to care for, these times of closeness. A dollar saved now is worth knowing and we know that the price of the TRIBUNE can be saved by any one of our readers who has to prepare for Christmas, New Years, or anything that requires goods and articles of ornament and use.

NELSON & BULLEN

have done business in groceries and dry goods at their present place of business for fifteen years; in this time they have received as much of the general trade of Cheboygan as any other firm. This they appreciate, and they have resolved upon a measure that will work good to every consumer and purchaser who honors them with custom. For two years they have studiously tried to rid themselves of all dead stock and have succeeded so well that there is not a clearer, fresher stock of dry goods in this city than what they offer for sale. They have decided to sell before the first of February 1884 all the goods that are not absolutely staple, at cost and below cost. Goods are being received daily and they go right along with the rest, at a sacrifice, so as to induce people to buy, and enable them to better arrange their business for the advantage of all customers in the future.

E. O. PENNY,

The gentlemanly, efficient manager of the dry goods department showed us some goods that had just arrived, and the figures on them, that convinced us they mean business as they always do, and will be true to every promise they make in reference to goods, prices, &c.

We saw

DRESS GOODS

that were fresh and lovely marked only 12½ cents that they have never until now sold under 20 cents. This is fact sure as you live. Then there is

UNDERWEAR

for gents and ladies, all wool and merino, sold at figures that make music for those who are almost broke. The goods are just what is needed and the poorest can get the best because the price is hard pan.

And so far as

HOSIERY AND MITTENS

are concerned, there is every style, size and color that is fashionable, splendid material and bed rock prices. It is a shame that everybody don't know what bargains there are in Cheboygan—it would increase our population largely.

We gazed at

COLLARS AND CUFFS

and thought everybody ought to be collared and cuffed when it can be done so handsomely and cheaply. The

HATS AND CAPS

are offered at figures that will convince every man or boy that he cannot afford to go bareheaded even in January. The great bargains in

CLOAKS

will clean them out quickly for they have just come, are due in quality, elegant in style and ready for any one who has a little cash.

We cannot enumerate farther; you will have to go and see Penny for the goods themselves.
